

# INTERNSHIP FINANCIAL / LIFE SCIENCES AND BUSINESS ANALYST

## OUR COMPANY

Venture Valuation is a Swiss based company that specializes in the independent assessment and valuation of Life Science companies (Biotechnology, Pharmaceutical, and Medical Technologies) and other high tech industries. In addition to our well-known valuation products, we run the business development database Biotechgate ([www.biotechgate.com](http://www.biotechgate.com)) as well as the business matching software HelloPartnering ([www.hellopartnering.com](http://www.hellopartnering.com)).

Venture Valuation has conducted over 600 valuations in Europe, APAC and North America. Clients include investors/Pharma companies such as Novartis Venture Fund, Fraunhofer Gesellschaft, the European Investment Bank, Ferring and many start-up and high growth companies. Headquartered in Zurich, Venture Valuation employs a team of 30 people and has offices and affiliates in Ireland, UK, USA, Canada and Singapore.

## YOUR ROLE

You support us in the development and maintenance of our global business development database Biotechgate. This includes research, i.e. gathering information about life sciences companies (business focus, technology, product pipeline, categorization, finance) but also search for new companies in specific life sciences sectors. You write our monthly VC deal summary and support us in the annual biotech trend analysis for different countries.

Furthermore you will help us in the assessment and independent valuation of high growth companies in the life sciences and other high tech industries as well as doing market research. You should have good understanding and interest of finance/valuation and the Life Science industry. We can provide you with a unique insight into the industry.

The internship will be located in our office in Zurich, duration will be at least 6 months (starting right away / within 1-2 months).

## YOUR PROFILE

We are looking for a dedicated person which can work independently, is interested to get an insight into the business side of the life sciences and the venture capital industry and is willing to take some responsibilities. Applicants should have:

- Interest in Life Sciences / Biotechnology (experience is a plus)
- Good analytical skills
- Detail orientated
- Very good English knowledge
- Sound Financial understanding
- Work permit for Switzerland (must have)

## CONTACT

Are you interested in the position and you believe your profile matches with our requirements? Then please send your CV by e-mail to Patrik Frei, [careers@ventureevaluation.com](mailto:careers@ventureevaluation.com). We are looking forward to hearing from you.
